

Ground Technician

Interlaken, NY 14847

Position Overview

Experienced/Non Experienced

Job Duties

Operate within a team to prune, trim, and remove trees in residential and non-residential environments for reasons of hazard reduction, aesthetics, tree health, or building development.

What You'll Do:

- Bring a rock solid attitude and passion for the outdoors to a growing company with wide ranging opportunities.
- Be willing to learn new skills with humility and disciplined interest
- Operate and maintain tools and equipment such as hand tools, chainsaws, chippers, power tools, and aerial rigging.
- Perform all aspects of tree care and removal services safely and skillfully for clients including but not limited to: Pruning, thinning, tree removal, stump grinding, planting, mulching, clean-up ect.
- Drive sub-CDL equipment to and from job sites

Qualifications

What We're Seeking: EXPERIENCED/NON EXPERIENCED

- Preferred: Background or education in Forestry, Agriculture, Horticulture, Landscaping
- Preferred: competence with forestry tools such as chainsaws, ropes and rigging
- A clean standard driver's license and personal transportation
- Prior certification or willingness to complete training in CPR and first aid
- Prior certification or willingness to complete training in defensive driving
- Physical fitness that allows for the manual labor portion of work to be completed safely. This includes the ability to safely:
 - Lift 50 Lbs
 - Bend below the waist
 - Operate on challenging footing and slopes
 - See and hear and communicate clearly

Additional Information

What We Offer:

- A competitive wage
- A safe and professional work environment
- A healthy crew dynamic built on mutual respect
- Best-in-class equipment and tools
- A hands-on education in silviculture and dendrology
- A promising opportunity for upward mobility within the company

Company Overview

Since 2005, Finger Lakes Forest Management & Timber Harvesting LLC, located in Interlaken, NY, has provided all types of tree services to Seneca, Tompkins, and Schuyler counties. We provide economically and ecologically sound solutions for private forest owners and residential homeowners. With the widest variety of the industry's most elite equipment, we offer the most extensive range of forestry-related services and capabilities in the area.

We understand the frustration of researching and dealing with multiple contractors. That's why we strive to offer comprehensive and professional forest services so you can rest easy that our skilled staff will meet all your goals. With Finger Lakes Forest Management and Timber Harvesting LLC, we don't come to perform a job, but to build a longstanding relationship with our clients.
